

JotForm Resources

JotForm Template Links

Directions for [how-to-use templates](#):

These JotForm templates are meant to be sent to cases in your jurisdiction who would benefit from an electronic case investigation. Use of these forms does not replace the reporting requirement between Local Health Departments (LHDs) and DPHHS.

General communicable diseases:

COVID-19:

- COVID-19 Case Investigation: <https://hipaa.jotform.com/form-templates/covid-19-case-investigation-form> [hipaa.jotform.com]
- COVID-19 School Exposure Notification: <https://hipaa.jotform.com/222434324216042>
- COVID-19 Close Contacts Reporting: <https://hipaa.jotform.com/222493653094056>

Monkeypox:

- Monkeypox contact form: <https://hipaa.jotform.com/222204786853056>
- Monkeypox case investigation <https://hipaa.jotform.com/222154265629053>
- Monkeypox vaccine waitlist: <https://hipaa.jotform.com/222226387633053>

Heavy Metals:

- Follow-up Lead Poisoning Questionnaire: Contact Abbie Phillip, Abbie.Phillip@mt.gov
- Follow-up Cadmium Exposure Questionnaire: Contact Abbie Phillip, Abbie.Phillip@mt.gov

Outbreak Reporting:

- Template of Outbreak reporting form: <https://hipaa.jotform.com/221165681644053>
 - This link can be shared with facilities (schools, daycares, long-term care facilities, etc.) who are experiencing an outbreak of a communicable disease. Facilities will complete this outbreak report form in order to share details about the outbreak

with the local health department (LHD). The LHD must still report the outbreak to DPHHS.

- Outbreak line list: <https://hipaa.jotform.com/221394782498066>
 - This link can be shared with facilities experiencing an outbreak of a communicable disease. The facility will complete the survey for each ill individual that is part of the outbreak. The entries will get populated onto an excel line list for LHD use.

Case Reporting:

- Communicable Disease Case Report: <https://hipaa.jotform.com/222434197109051>
 - This general reporting form should be shared with cases of reportable communicable disease that do not have a disease-specific case report form (such as Coccidioidomycosis).
- Hand, Foot, Mouth: <https://hipaa.jotform.com/220746612792156>
 - This form can be sent to facilities (schools, daycares) that are experiencing an outbreak of HFMD. It can be used to create a line list, as the facility will fill out the form for each case. The [Short Version of the Outbreak Report](#) form must still be sent to DPHHS for outbreak notification.
- Human Infection with Novel Influenza A Virus Case Report Form, contact Devon Cozart, Devon.Cozart@mt.gov
- LTBI Report Form for Providers: <https://hipaa.jotform.com/221934601982054>

Enteric diseases: Contact Rachel Hinnenkamp, Rachel.Hinnenkamp@mt.gov to receive the template URL for enteric diseases listed below.

- Campylobacteriosis Investigation Form
- Cryptosporidiosis Investigation Form
- Cyclosporiasis Investigation Form
- STEC Investigation Form
- Giardiasis Investigation Form
- Shigellosis Investigation Form
- Vibriosis case investigation
- Cholera case investigation
- Salmonellosis case investigation
- Listeriosis case investigation

Vaccine preventable diseases: Contact Jessica Lopeman, Jessica.Lopeman@mt.gov for template URL

- Meningococcal outbreak
 - This form can be used to send to schools that are experiencing an outbreak of Meningococcal disease. The school will fill out the form for each case and this will create a line list of cases. DPHHS must still be notified of the outbreak.
- Hepatitis A Investigation Form: Contact Rachel Hinnenkamp, Rachel.Hinnenkamp@mt.gov

Animal Bites/Rabies Exposure

- Bite report: <https://hipaa.jotform.com/221864141195051>
- Bat Exposure Report Form: <https://hipaa.jotform.com/222495933153055>
- Animal quarantine following a bite, contact Jessica Lopeman, Jessica.Lopeman@mt.gov
- Declination of Rabies, contact Jessica Lopeman, Jessica.Lopeman@mt.gov
- Provider Rabies Exposure Reporting Form:
