NOTE: There are potential limiting factors likely resulting in the calculation of >100% for the 70-79 and 80+ age groups:

- 1) Population estimates are from 2020 and may be lower than 2021 and 2022 numbers.
- 2) Due to excellent outreach in the county, some doses administered may have been given to out-of-state or out-of-country residents but due to missing residence information, they are defaulted to county of administration (in this case, Lake).
