School-related COVID-19 cases in Montana, 2021–2022 School Year

Updated 3/3/2022

This report includes school-related cases of COVID reported to Montana DPHHS. **Due to the very large volume of new COVID cases occurring each day, DPHHS is not able to maintain an accurate count of school-related cases at this time. Your school's website or county website may have a more up-to-date number of COVID cases at schools.**

To allow local health jurisdictions and schools time to notify parents and the community about possible COVID exposures in schools, we will report infections reported through the end of the school week prior to this publication (2/25/2022). The column "Cases in Last 2 Weeks" reports the number of cases newly reported in the previous two weeks (2/11/22–2/25/22). Please note that school names are not included in the table if no cases are reported from that school.
