

The Montana Clean Indoor Air Act Protects Public Health

Expansions to the Montana Clean Indoor Air Act:

- ✓ Protect the public from further exposure to secondhand smoke.
- ✓ Protect the public from exposure to emissions from novel tobacco products, including e-cigarettes

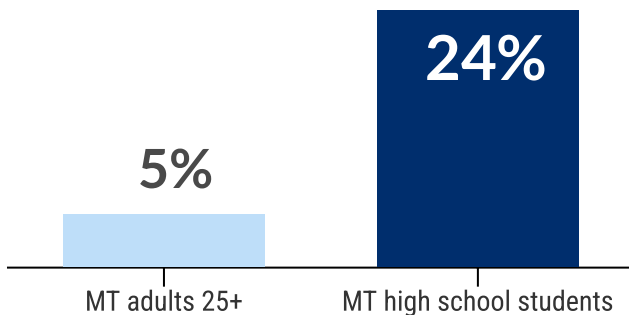

10 
MT LOCALITIES
protect their residents
from e-cigarette aerosol.

383,350
MT RESIDENTS
are protected from e-
cigarette aerosol.

 **9**
MT LOCALITIES
keep outdoor secondhand
smoke from drifting indoors.

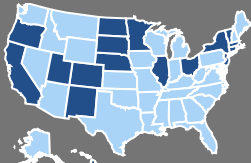

Including e-cigarettes in smokefree laws protects our youth.

The use of e-cigarettes among Montana's high school students and young adults is **5X** that of Montana adults age 25+. (1, 2)

E-cigarette aerosol is not "harmless water vapor." The aerosol can contain harmful and potentially harmful substances, including:

- Nicotine
 - Ultrafine particles that can be inhaled deep into the lungs
 - Toxic flavorings
 - Volatile organic compounds
 - Cancer-causing chemicals
 - Heavy metals such as nickel, tin, and lead (3)
- 

19 
states include e-cigarettes in
their comprehensive
smokefree laws. (4)
