

MEN: THIS AD COULD SAVE YOUR LIFE

Most heart attacks in men start slowly and are not always intense with typical chest pain. Today, new medications and treatments can prevent disability and possibly save your life.

If you, or someone you know, experience these symptoms, call 9-1-1 immediately! *Every minute counts.*

- Chest pressure, pain or discomfort
- Pain in arms, neck, jaw or stomach
- Sweating or nausea
- Shortness of breath

For more information, call 1-800-AHA-USA1, or visit www.heart.org.

Brought to you with funding from the Centers for Disease Control and Prevention.
