

Fall Prevention

1,900

Montanans were hospitalized due to unintentional falls in 2020

56%

were women

74%

were 65 years or older

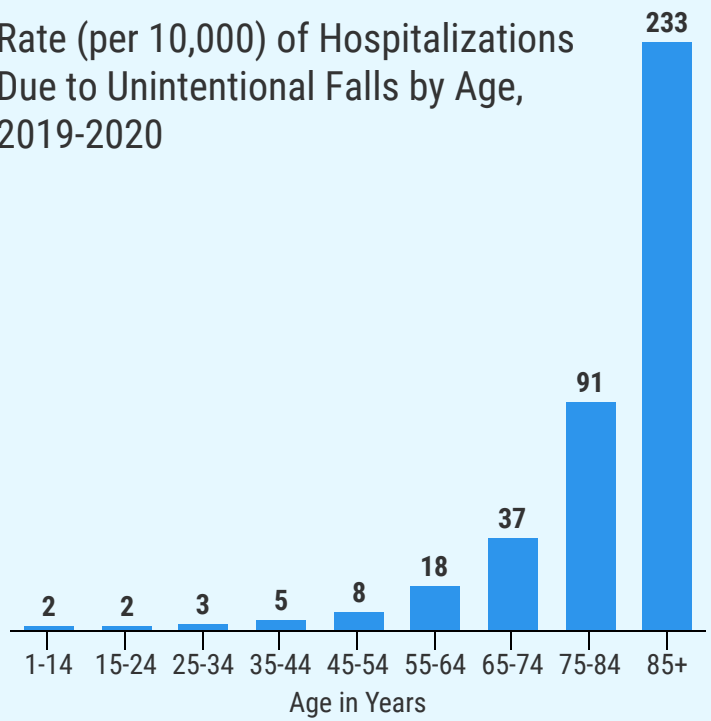

48%

of falls among older Montanans (aged 55+) are from a slip, trip, or stumble on ground level

Nearly **one in three** Montanans age 65 or older report falling at least once in the last 12 months

Rate (per 10,000) of Hospitalizations Due to Unintentional Falls by Age, 2019-2020

Five Steps to Prevent Falls

1. Start or maintain an exercise program
2. Talk with your healthcare provider
3. Review your medications with your doctor and/or pharmacist
4. Have your vision and hearing checked
5. Keep your home safe by removing tripping hazards

One in five falls result in a serious injury
